

How to Add Foil to Your Card

Templates With Provided Foil Layer

1. Open up your card template of choice in Photoshop.
2. Make your changes, add images, change text, change colors, etc.
3. Turn off any layers that are included in the foil file. These layers are marked in green.
4. Turn off the Trim Area Layer. This layer is marked in red.
5. Save your file as a .jpg.
6. Now open the corresponding foil layer for the shape
7. Everything included in this file will be a foil layer on your card.
8. Turn off the Trim Area Layer. This layer is marked in red.
9. Save your file as a .jpg.

Templates With Custom Foil Layer

1. Design your card in Photoshop using a 1/8" bleed on all sides for the size you want. We also have blank templates available at Login.MarathonPress.com.
2. Make sure anything you want to have foil on is on a separate layer in your Photoshop file.
3. Turn off your foil layers
4. Save your file as a .jpg.

Placing Your Order

1. Go to Marathon ROES <https://www.marathonpress.com/download-marathon-roes/> or ROES Web <https://www.marathonpress.com/roes-web/>.
2. Select your size and shape in the Press Printed Foil Cards category
3. Place your design jpegs on top of the template and you will see cut/die lines.
4. Place your foil jpegs .
5. Choose your quantity and select Add to Cart.
6. Once in the cart click checkout.
