PPA LOAN COLLECTION

P R E S I D E N T ' S M E S S A G E

Dear Fellow Photographers,

Within these pages you will find some of the finest images in the world. The Professional Photographers of America Loan Collection has always been a source of inspiration and resource over my 30 plus years of membership. Often called the "Best of the Best", inclusion in this book is an honor that is coveted by any photographer who has been fortunate enough to have been selected to receive this special recognition.

I hope that as you view the images contained in this edition, you will enjoy the many talents that our members exhibit from around the world. The creativity, planning and execution of these images along with their presentation is remarkable. This truly is a collection of awe inspiring works of art.

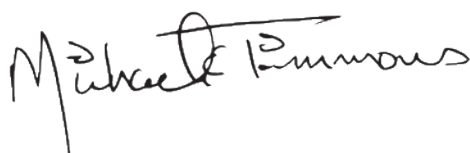

Photographers from around the world work hard each and every day to create images that not only capture the event that is occurring, but also create those unique images that also speak to the heart in a very special way. I am proud that the images in this extraordinary book achieve a special place that is far and beyond average. Each one of these images contains a part of every photographer represented. Their vision, experiences in life, and passion are reflected in the images that have been presented here.

Judging this collection is a painstaking experience for the nearly 45 judges who give up a week from their schedules to review, reward and for those whom desire, critique their entries during the annual International Photographic Competition each year. I applaud their efforts and also the efforts of the International Photographic Competition Committee, who oversee the exhibition entries and event each year.

So as you look through this collection of images, let yourself be inspired, challenged and encouraged. Hopefully, you will also be motivated to enter the exhibition in hopes that your images will one day appear within the pages of this book. If your images are already included here, then may I offer my congratulations on achieving this distinct honor, and look forward to seeing your inclusion again in the future.

Thank you to Marathon Press for printing this book each year and making it available to our members to collect. This extraordinary work shows the many talents and creativity of our diverse membership.

Sincerely,

Michael E. Timmons

PPA LOAN COLLECTION
A WORD FROM THE PUBLISHER

Welcome to PPA's Loan Collection, Volume XVIII~ 2015!

Every year, as we proceed through the process of publishing the PPA Loan Collection and PPA Showcase books, we marvel at the level of creative expression and expertise that is presented in these volumes. This alone makes the staff at Marathon proud to be associated with a project of such distinction. We also are aware of how much PPA's annual International Print Competition means to the industry in terms of its ability to set and maintain standards of excellence that photographers worldwide can seek to achieve.

We are impressed also with the capacity of the print exhibition to educate. Whenever a photographer views the collection itself, studies images in the books we publish, or goes through the process of competition, invaluable learning takes place.

So to all those who make this extraordinary competition a success, Marathon sends its congratulations on fashioning a unique and vital resource for photographers and image makers everywhere.

Sincerely,

A handwritten signature in black ink, reading "Rex Alewel". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.
